## AUTUMN 2023

### Founder's Column

When I am asked what our charity AMEN does, my standard reply is that 'AMEN partners with Christian ministries, mainly in developing countries'. However, that doesn't always seem to satisfy the questioner! AMEN started around 28 years ago supporting a fledgling Christian video ministry in India and while India remains the nation with the greatest number of partnerships, there are others, as you can see here, in Nigeria, the Philippines, Serbia and Romania. In addition, there are some friends who have to remain below the radar because of security issues.

AMEN is involved in many holistic Christian ministries from relieving poverty to outreach, training, education, media and young people's work. Because AMEN doesn't employ anyone, people appreciate the fact that 100% of every donation they make will be sent to our partners.

Visit [www.amentrust.co.uk](http://www.amentrust.co.uk) for information on how you can donate.....and thank you so much for making AMEN a charity you support. - Gareth

## Romania

A children's nursery was built on the side of a small village church. Everyday, the children are given a hot meal and some fruit. The community is extremely poor and needy. Through educating the young, Magda and her husband Catalin hope to help break the cycle of poverty as these children grow up and find employment. When Magda was 9, a lorry stopped in Soard to give out bread to people. Magda not only received bread to eat but received the true bread from heaven - Jesus Christ as her Saviour. Magda and Catalin minister in the church. They understand the gypsy culture and are working to see change happen.

We are organising another day of prayer in November, a full day on our knees, with tears not to save us, but to pull down the strongholds of Satan and his demons so that the gospel can reach the helpless and hopeless people. Remember us and our needs. S & S, South Asia

David and Jeba founded Village Missionary Movement (VMM). Today, there are over 700 missionaries who are all supported from within India. It all started when a local school teacher committed herself to pray for years that God would send out workers into His harvest field. Before she died, she saw the small beginnings of this great movement.
